Dear Sir,

I would like to tell you what a wonderful and useful product the "Lil Dipit" is. It is by far the most used pool accessory we own. We use it year round for everything from scooping leaves out of the spa to pulling the pool sweep out of the pool. In the Dallas area most people run their pool filters throughout the winter. Because the water is so cold, no one likes to reach down in the water to empty the skimmer baskets - a daily chore due to the leaves. For years we used coat hangers to lift out the baskets until we got the "Lil Dipit". Everyone I have shown this product to agrees that it is one of the most useful pool accessories ever made.

Sincerely,
